29 June 2023

Dear Mr Pradhan,

It was a pleasure to meet you and your colleagues to further understand the work of the OGP and the contribution the UK has made.

Further to your letter of 22 December 2022, I am writing to you about the steps the UK Government has taken to meet minimum participation requirements in the implementation of the Fifth National Action Plan on Open Government (NAP5).

The Criteria & Standard Sub-committee asked that we provide evidence of meeting minimum participation requirements by 30th June in order that we remain active members of the partnership and subject to a final review by the IRM in Q1 2024. The minimum participation requirements of concern for NAP5 were that we have an up-to-date online repository for NAP5 updates, and that we meet the 'inform' level of engagement with civil society.

I am pleased to be able to tell you that we are now:

- meeting the 'inform' level of engagement on NAP5 progress by holding quarterly Multi-Stakeholder Forums (MSFs), sharing read-outs from these MSFs and detailed updates through twice-yearly written reports;
- ensuring read-outs and written reports are made publicly available through the UK Open Government Network website, which provides the current UK repository; and
- working to ensure that civil society and government representatives for each NAP5 commitment area are in frequent contact and that open dialogue is sustained through to the end of NAP5 implementation.

The UK Government is going beyond these requirements in a number of ways. We are putting in place the right conditions to meet the new OGP minimum participation standards for NAP6, including having a 12-month rolling programme of MSFs and a clear focus for each meeting. The UK is also launching the development of the Sixth National Action Plan for Open Government to a clear timetable, having worked with civil society in the planning, outreach and upcoming launch of the co-creation phase. Finally, we are working with our civil society partners to develop a broader

community - a network of networks - who will help us to promote and embed Open Government beyond the action framework.

I am personally looking forward to attending the OGP Summit in Estonia in September, where I believe the UK delegation will be making a valuable contribution. We hope this will include the opportunity for a dedicated session for governments to discuss their common challenges in integrating domestic Open Government with OGP processes.

I trust that the OGP Criteria & Standards Subcommittee will agree that the UK is now meeting OGPs minimum participation requirements. We will continue our renewed approach in the ongoing implementation of NAP5 and co-creation of NAP6 through 2023.

Kind regards,

Alex Burghart MP Parliamentary Secretary

July 10, 2023

Alex Burghart MP
Parliamentary Secretary
Government of the United Kingdom

Dear Minister Burghart,

Thank you for your letter. I would also like to express my great appreciation for our meeting and the opportunity to learn more about the open government initiatives being implemented by the UK Government.

I am very glad to receive your confirmation for attending the OGP Global Summit in September. Your leadership and expertise on the core issues being discussed throughout the summit will provide a valuable perspective to the diverse OGP community gathered there, including at the Ministerial Steering Committee meeting taking place on September 5th. More details will be shared in the coming weeks.

I also confirm receipt of the relevant documentation regarding UK's compliance with OGP minimum participation requirements as outlined in the Criteria & Standards Sub-Committee resolution from 20 December 2022. It is encouraging to see the UK Government striving to go above the minimum requirements as outlined in your letter dated 29 June 2023. This information has been transmitted to the rest of the Criteria & Standards Subcommittee for their information.

I am pleased to inform you that, considering that the terms of the resolution have been met, inactivity discussion will not be considered by the Subcommittee for the time being. The UK Government will remain under Procedural Review until it meets the minimum requirements, as assessed by the IRM Results Report that should be published early next year.

The OGP Support Unit and Steering Committee stand firmly committed to assisting and supporting you in any way necessary during the final stages of implementation of the UK's fifth action plan and the co-creation of the next one.

Yours sincerely,

Sanjay Pradhan

Chief Executive Officer
